Summer Fashion

While ponytails still reign this season and are great summer comfort, change it up by curling the pony then back comb a bit for fullness, or wrap it like a chignon. Add a new dimension to your locks by framing the face with solid

lash length bangs. Not everyone has the length for a "tail", but don't let that stop you. Gel your short layers back and clip in a weft!

The eyes have it this season with smoky, strong color around the entire lid and lots of lash. So really play them up and add extra lashes on. Lips are subtle, sheer tones and cheeks are soft and muted.

Have fun with your nail color and create flowers, stripes, or polka dots! Choose bright pink, purple, orange, blue, or white from OPI summer collection.
