Fall and Winter

Forecast is all about patterns and texture. Bold colors of purple, cobalt, deep browns, and plaids. Time to add more texture in your hair with waves, curls, and strong bangs. Put big jewels and studs on everything! Short jackets, flowing tops, wide-leg sailor pants, longer hemlines, and belted dresses are all the rage.

Education

Our Team will be attending a 2 Day Forum in Grand Rapids in October. We will receive tons of technical information and knowledge on the latest trends for hair, makeup and fashion. Another great opportunity for us to grow and serve you better.

Community Service

2007

Our support for the 3 Day was a great success thanks to your generosity. We donated boxes of cell phones, print cartridges, numerous bags of bottle & can returns, and our 9 last Saturday of the month proceeds totaled close to 1000 dollars. We are looking toward 2008 and would like your input on any local organizations that you feel worthy of supporting. Put your vote today.
